- Six months field experience participating in ServiceNow deployment projects or maintaining ServiceNow instances.

Exam Scope

The following table shows the topics on the exam and their weightings.

Exam Topics	Percent of Exam
Overview of how Agent Intelligence is positioned in the ServiceNow platform	20%
Preparing for Agent Intelligence activation	10%
The Agent Intelligence implementation process	60%
Training the ServiceNow instance	10%

Exam Registration

Each candidate must register for the exam via the ServiceNow [Webassessor](#) website using a voucher obtained by completing the Agent Intelligence self-paced course training prerequisite. The exam is available directly through the Webassessor site as a non-proctored, 60-minute exam.

Exam Structure

The exam consists of {15-25} questions. For each question on the examination, there are multiple possible responses. The person taking the exam reviews the response options and selects the *most correct* answer to the question.

Multiple Choice (single answer)

For each multiple-choice question on the exam, there are four possible responses. The candidate taking the exam reviews the response options and selects the one response most accurately answers the question.

Multiple Select (select all that apply)

For each multiple-select question on the exam, there are at least four possible responses. The question will state how many responses should be selected. The candidate taking the exam reviews the response options and selects ALL responses that accurately answer the question. Multiple-select questions have two or more correct responses.

Exam Results

After completing and submitting the exam, a pass or fail result is immediately calculated and displayed to the candidate. More detailed results are not provided to the candidate.

Exam Retakes

If a candidate fails to pass an exam, they may register to take the exam again up to three more times for a cost of \$25.
